Projects

Whisper Application | HTML, CSS, JavaScript, MongoDB, Node.js, Express.js

[GitHub](#)

An application of community of users, which keeps them anonymous, while texting.

Developed by group of Interns.

I contributed to the HTML section, which gives users great user experience with awesome UI.

Weather App | HTML, CSS JavaScript

[GitHub](#)

A simple static weather application that displays weather condition of selected cities.

No APIs was used.

To-Do App | HTML, CSS, JavaScript

[GitHub](#)

A simple To-Do application that renders and displays user inputs as task, saves the task, and can delete tasks if necessary.
